

# AI and Cybersecurity

## JOURNAL COLLECTION

### ADVANCING KNOWLEDGE IN ARTIFICIAL INTELLIGENCE AND CYBERSECURITY

In today's rapidly evolving technological landscape, Taylor & Francis supports researchers, educators, and institutions with a carefully curated collection of peer-reviewed journals in artificial intelligence and cybersecurity. This collection empowers knowledge makers to explore cutting-edge developments, methodologies, and strategies in these critical fields.

#### KEY FEATURES

##### Comprehensive Coverage

- Access full journals for in-depth exploration of AI and cybersecurity topics
- Spanning security policy, cyber threats, AI applications, systems science, and global information management

##### Interdisciplinary Insights

- Address cybersecurity challenges from technical, policy, and societal perspectives
- Explore AI's role in security, ethics, governance, and risk management

##### Trusted Academic Resources

- Published by Taylor & Francis, a world-leading academic publisher since 1798
- Includes journals recognized in the Financial Times FT50 list and highly ranked within their fields

### SUPPORTING KNOWLEDGE MAKERS

#### For Librarians

- Enhance your institution's research capabilities in cybersecurity and AI
- Foster interdisciplinary collaboration across departments

#### For Researchers

- Access leading studies on AI, cybersecurity threats, and information security strategies
- Stay at the forefront of advancements with peer-reviewed insights

#### For Educators

- Integrate expert content into curricula, preparing students for future challenges in AI and cybersecurity
- Provide foundational knowledge for the next generation of security and technology leaders

## FEATURED JOURNALS

### Cybersecurity & Policy

Critical Studies  
on Security

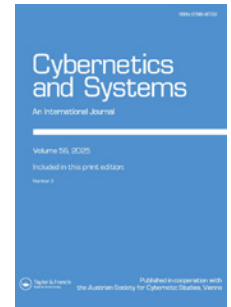

Journal of  
Cyber Policy

Journal of  
Strategic  
Studies

Security Studies

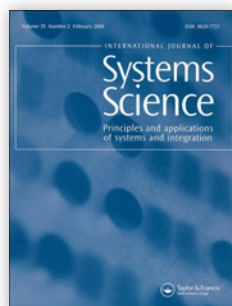

Cybernetics  
& Systems

### AI, Systems & Technology

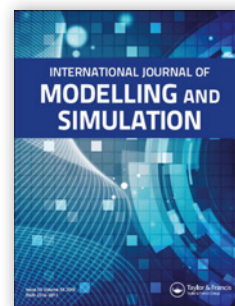

Advanced Robotics

International Journal  
of Systems Science

International Journal  
of Systems Science:  
Operations & Logistics

International Journal  
of Modelling  
and Simulation

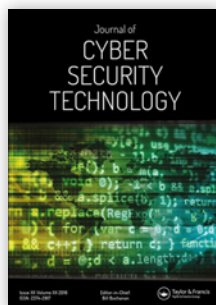

Journal of  
Experimental &  
Theoretical Artificial  
Intelligence Online

### Applied Security & Information Management

Journal of  
Applied Security  
Research

Journal of Cyber  
Security  
Technology

Journal of  
Management  
Information Systems  
(FT50 Listed)

The Information Society

Journal of Global  
Information  
Technology  
Management
